

VERDE GARDEN GRASS 35MM

LANDSCAPING • LAWNS • SPORTS • LEISURE

Soft, natural, and family-friendly, Verde Garden Grass returns by popular demand in a new 35mm version! With cushioned fibres and economical prices, it's perfect for creating a welcoming garden where kids and pets can play. Designed to blend beautifully into any outdoor space, it brings comfort and relaxation to your home. Don't miss out - make your garden a place to belong.

For a secure installation, we offer a range of professional **adhesives and shock pads:**
Verde Grass Stick – Bonds artificial grass to jointing tape, patios & more. Each cartridge covers 3m of Jointing Tape or creates a 10m bead.

Verde Jointing Tape – Designed to create neat, secure joins, this durable tape should be laid shiny side down to prevent water penetrating from below.

Shock Pads - A range of different underlays are available to suit individual needs.

Simple Maintenance Tips:

Use a power brush, garden vac, or leaf blower to revive flattened areas or remove leaves, seeds & dirt. This assists with drainage, prevents weed growth and keeps your lawn looking pristine.

Pet-Friendly & Low Maintenance

Our artificial grass is safe for pets and animals. The simple use of a watering can or hose prevents lingering odours. Stubborn marks can easily be removed with household detergent. Our dense grasses requires no sand infill and the installation of a grano base ensures the grass remains smell free.

Verde Sports specialise in top quality artificial grasses and synthetic surfaces. Available in a variety of colours, sizes, and price points, our products are ideal for a variety of applications – including specialist options for cricket, golf, bowls, and more.
